

# Backend-Developer PHP

## 80 – 100%

We are currently looking for a passionate Backend PHP Developer (80–100%) to join our DevOps team. You will work on best-in-class applications and collaborate with developers who constantly challenge themselves to raise the bar of what is «state of the art» technology.

### What our perfect candidate ❤️ to do ...

- You have OOP PHP experience and know the Laravel framework
- You work with tools around the Laravel Ecosystem
- You can design and query relational databases (e.g. MySQL, PostgreSQL)
- Basic knowledge in Javascript frameworks (e.g. VueJS, AlpineJS)
- Basic knowledge in CSS frameworks (e.g. TailwindCSS, Bootstrap)
- Git

### What we can offer you ...

- Young and fast-paced team with a strong «do»-mentality.
- Funny Memes and nice culture. Also besides working hours.
- Modern work environment.
- Alternate between our office & remote work as it fits for you.
- Paid education time and training with other devs.
- Yearly company trip somewhere in Europe.

### What's important for us ...

- We work hard, but we have fun. Our team loves challenges.
- We want to make our clients happy and deliver them best quality every day.
- Everyone in the team is important and has true ownership over their responsible area.
- You are an independent operator, working with a large amount of autonomy.

### You think we're a match?
